CHITKARA UNIVERSITY

Chitkara University Institute of Engineering & Technology
Department of Computer Science & Engineering
(Artificial Intelligence & Future Technologies)

Ref No.: CUIET/CSE/AIFT/2026/70 **Date: 22-Oct-2026**

BE-CSE (AIFT), Batch 2025, 3rd Semester

RUBRICS FOR FRONT END ENGINEERING-II (25CSE0203)

Project - Based Evaluation – II

Evaluation Components	Details	Marks
1	Presentation	5
2	Project Work and Viva	25
	Total	**30**

Rubrics for Evaluation Component 1:

Criteria	Recommended Scores		
	Excellent (5)	**Good (3-4)**	**Satisfactory (0-2)**
Understanding and Communication	**(2)** Demonstrates thorough understanding of the project. Effectively communicates key points and main ideas.	**(1)** Demonstrates basic understanding of the project. Communicates key points but may miss some details.	**(0-1)** Demonstrates limited understanding of the project. Struggles to communicate key points.
Clarity and Organization	**(2)** Presentation is clear, well-structured, and logically organized. Effectively uses visual aids to enhance understanding.	**(1)** Presentation is somewhat clear but may lack some structure and organization. Uses visual aids, but not effectively.	**(0-0.5)** Presentation is unclear and poorly organized. Visual aids are missing or ineffective.
Engagement and Enthusiasm	**(1)** Shows high level of engagement and enthusiasm throughout the presentation. Captivates the audience and maintains interest.	**(1-2)** Shows some engagement and enthusiasm. Able to maintain audience interest to a certain extent.	**(0-0.5)** Lacks engagement and enthusiasm. Fails to captivate or maintain audience interest.

CHITKARA UNIVERSITY

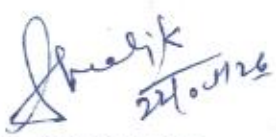

Chitkara University Institute of Engineering & Technology
Department of Computer Science & Engineering
(Artificial Intelligence & Future Technologies)

Rubrics for Evaluation Component 2:

Criteria	Recommended Scores		
	Excellent (19-25)	**Good (9-18)**	**Satisfactory (0-8)**
React-Navigation layout and page structure	**(7-8)** A deep understanding React Navigation layout and page structure.	**(3-5)** Demonstrate basic understanding of React Navigation layout and page structure.	**(0-2)** A little understanding of React Navigation layout and page structure.
Context API and State architecture in React apps	**(6-8)** Demonstrate and excellent command on Context API, and State architecture in React apps.	**(3-5)** less understanding on Context API, and State architecture in React apps.	**(0-2)** Demonstrates poor understanding on Context API, and State architecture in React apps.
Intro to Redux Toolkit	**(3-5)** Effectively implementation of Redux Toolkit.	**(2-5)** Moderate implementation of Redux Toolkit.	**(0-2)** Fails to implement Redux Toolkit.
Form handling in React	**(3-4)** Excellent usage of Form handling in React.	**(1-3)** Moderate usage of Form handling in React.	**(0-2)** Poor usage of Form handling in React.

Note: -

- Project team may consist 3 to 4 members.
- Submission of the project on GitHub is mandatory for all groups. The GitHub repository must be updated regularly throughout the semester.
- During each evaluation, the evaluator will review the repository to assess the project's progress, code contributions, version history, and overall development. Failure to maintain or present the GitHub repository may result in mark deductions.
- In case student is absent in any lab evaluation, he/she will be given zero in the lab evaluation marks (under all rubrics).
- Any student found submitting work directly generated by AI tools, such as large language models (LLMs), without significant personal contribution, will receive a grade of zero.
